After PT, Students will be escorted back to the PT room. Students will have the opportunity to clean up with baby wipes and use deodorant (with drill instructor monitoring). Students may also use the restroom, fix their hair, and get back into dress code.

Point cards will be completed by the assigned drill instructor for that period and then returned to the students.

Students should be back in ADAPT dress code and ready to be escorted back into the main building. The drill instructor will then escort the students back into the main building.
