

TIPS and TRICKS for SKYWARD LOGIN

1) Student Skyward Logins

Students are able to login to Skyward using your Alvin ISD network login and password. You can login through www.alvinisd.net/skyward. *Note: Skyward requires passwords of 8 characters*

Troubleshooting Tip: If you need to reset your password, while you are logged into the network, press ctrl+alt+delete and select the “Change a password” option that is available.

2) Families requesting to receive email communications – skylert

At www.alvinisd.net/skyward, be sure to go through Step #3 Skylert, in order to receive email communication from Skyward. The available options allow families to identify the format in which you receive communication from the school.

3) Skyward Letters

Letters with log-in information have been mailed home for those families who were in the system. New students/families who enroll in school before Friday, Sept. 16, will also receive a letter with login information.

Students/families who enroll after Sept. 16 should go to www.alvinisd.net/skyward to log in. Once your email address has been entered into Skyward, you can click on the “Login Here” button and click on “Forgot your Login/Password?” The system will then send an email to you with your Skyward login information.
