

**PTIONS**

*your future reclaimed*

## What is Options?

OPTIONS is a school of choice drop-out and credit recovery program that has a certification partnership with Alvin Community College. It is designed to assist students in making progress toward meeting graduation requirements and gaining necessary job skills. Upon completion of their course work, students will not only have a high school diploma, but they can have training and a skill set in some of the fastest growing vocational career fields in the current job market.

## How it began

In 2011, a team of diverse district employees came together in search of a program to assist students at risk of not graduating. After visiting several districts that have implemented similar successful programs, OPTIONS came to life. The goal is to prepare and to develop students into productive citizens while preparing them for their future. We sincerely hope you will consider this program as an **OPTION**.

## Who is it for?

- Lacks high school credits
- Considering quitting school
- Has already dropped out
- Was not successful in a traditional high school setting
- Has let outside influences affect their education

## How it works?

- Prospective students request an application from their home campus.
- Home Campus determines if an OPTIONS interview is the best path for the potential candidates
- Upon approval of application, an OPTIONS interview is scheduled
- OPTIONS administration conducts interviews and communicates acceptance decisions

## ACC Courses offered:

- Pipe Fitting
- Welding
- CNC/Machinist
- Phlebotomy
- Certified Nursing Assistant
- Veterinary Assistant
